

Scope

All types of *External Power Supplies* may apply for the *GEEA Label*, either sold as a separate product or as part of portable personal equipment (i.e. equipment that can run on batteries and is sold with a charger or external power supply).

All types of *Battery Chargers* may apply for the *GEEA Label*.

Criteria

A external power supply or battery charger is eligible for the GEEA-Label if the following criteria are met:

Category	Criteria	Criteria valid till*
External Power Supply	The power consumption in no-load mode is 0.3 W or less.	31.12.2005
Battery Charger	The power consumption in no-load mode is 0.3 W or less.	31.12.2005

* See Rules of Registration Procedure

Definitions

Term	Definition
<i>Load</i>	The device which is connected to the <i>External Power Supply</i> and to which the <i>External Power Supply</i> supplies power. The batteries which are put into the <i>Battery Charger</i> to be charged.
<i>No-load</i>	The mode in which the <i>External Power Supply</i> or <i>Battery Charger</i> is connected to the mains and the load is disconnected from the <i>External Power Supply</i> or <i>Battery Charger</i> .

Test method

For the test method see relevant sections of IEC 62301 Ed. 1.0 'Measurement of Standby Power'.
